### Native Plants

**Saturday, September 17: 9 a.m. – noon**

EDC's native plants support our colorful, beautiful and interesting native birds, bees, and butterflies. Naturally adapted to our Mediterranean climate with cold wet winters and hot dry summers, native plants survive when other plants give up and die. Come to this class to learn more about native plants and their interactions with our native fauna as only Master Gardener Virginia Feagans can cover. After the class, shop the fall plant sale to find some of the plants discussed that are just perfect for your garden

Location: Placerville Main Library, 345 Fair Lane, Placerville

### Fall Plant Sale
